To Whom It May Concern

Sina Keshvadi was a faculty member in the IT and Computer Science department at Payame Noor University, Borazjan, Bushehr, Iran, from September 2012 to August 2017. He regularly taught Operating Systems, Computer Networks, Algorithm Designs, Data Structures and Algorithms, and C++ Programming. He also taught most of the undergraduate Computer Science courses as needed. Teaching an overall of 12 units courses per semester is standard in our university.

At his request, a summary of the Student Instructional Rating Form (SIRF) evaluations on his teaching from selective courses are presented below.

Term	Course	Number of Students response on USRI	Average SIRF (5.00)
F 2016	Principles of Operating Systems	27	4.74
F 2015	Principles of Operating Systems	23	4.33
F 2013	Principles of Operating Systems	25	4.76
W 2016	Computer Networks	33	4.81
W 2013	Computer Networks	30	4.76
W 2012	Computer Networks	22	4.74
W 2016	Algorithm Design	35	4.55
W 2012	Algorithm Design	28	4.72
W 2016	Data Structures and Algorithms	31	4.82
W 2012	Data Structures and Algorithms	26	4.73
W 2014	C++ Programming	37	4.78
W 2013	C++ Programming	34	4.46
