Some of the first couple labs were confusing and I didn't in their relevance to the course material
N/A
Give more examples of questions and expected answers
Please don't drop a project at the end of the semester. That needs to be presented and announced at the start of the semester instead of it throwing a wrench into project month.

I enjoyed the partner work style used in the class.
N/A
Sina is a very good presenter and his ability as a professor to guide you to an understanding of difficult course material is of the highest level.
Personally I don't like the slide style, the volume is just far too high. The style of slides only works for code slides but any other slides I would prefer just one slide with all the info on it instead of having to scroll through the bloat.
N/A
Very hard labs. understandable grade percentage
N/A
I like the approach to content delivery you are trying to achieve and it will probably be very helpful; but keep some slides for quick topics or demonstrations :)
